**Subject:** Fw: Raw Data online for Dimock Site

Mark:

Just an FYI in case Kathy asks you any questions (no surprises rule in effect.) I kinda hoped that Trish would have created a more elegant approval request email (vs. simply forwarding the below email-chain-yuck) to Kathy and Humane - but, what is done is done.

I asked **Ex. 4 - CBI** to set up the "landing" site for the Raw Lab Data and Trish Taylor to provide descriptive text - she also provided some valuable design "touches." If this approach is approved (I mimicked Region 8 to aid that happening) the website (which is only visible internally until approved) can go live as soon as ORC reviews and accepts all the redactions (more on that below.)

I met with Don Evans who will generously assist us in using his access to the Agency ftp site to post the Raw Lab Data in the space allocated to him. Getting data onto the Agency ftp site is a bit of a "skunk works" process - it is not well documented. I asked Carol O'Tormey to review and approve our approach to posting the data -and she did.

## Ex. 5 - Attorney Client

We have a final step to figure out and preform regarding how the Raw Lab Data should be organized and presented on the Agency ftp site. We'll also need to do a lot of renaming because the ftp site adheres to UNIX naming conventions which are much more restrictive than MSWindows. While it is not a trivial amount of work - I don't see a problem having it done in time for the Target date (7-27-12). To accomplish this, I'm hoping to meet with Humane in the next few days to get agreement on how we want the data presented.

So you don't have to go searching through the mess below to find the links - I've copied them for you here:

Region 3 proposed site:

<http://intranet.epa.gov/r3intran/hscd/Dimock/PAN000306785.htm>

Region 8 version we mimicked:

<http://www.epa.gov/region8/superfund/wy/pavillion/docs.html>

Link to the redacted Raw Lab Data being reviewed by ORC:

L:\Share\CERCLA Records Center\Redacted Lab Data

Please let me know if you have any questions or would like to discuss.

Thanks,

Paul <http://www.epa.gov/region8/superfund/wy/pavillion/docs.html> <http://www.epa.gov/region8/superfund/wy/pavillion/docs.html> <http://intranet.epa.gov/r3intran/hscd/Dimock/PAN000306785.htm>

Trish:

Humane Zia in ORC is saying the tentative date, subject to final management and HQ approval, for going live with posting the raw lab data on the website:

<http://intranet.epa.gov/r3intran/hscd/Dimock/PAN000306785.htm>

is Thursday, July 26, 2012. Can you get your text with instructions how you want it to appear to [Ex. 4 - CBI] as soon as possible? Once [Ex. 4 - CBI] has the site looking the way you want it - I think you should have Humane and Kathy Hodgkiss review.

[Ex. 4 - CBI]

Please take a look at the Region 8 site:

<http://www.epa.gov/region8/superfund/wy/pavillion/docs.html><http://www.epa.gov/region8/superfund/wy/pavillion/docs.html>

and along with Trish's text - dummy in a link for the Raw Lab Data similar what they did. Unlike Region 8, where they have "QA Documents", "Monitoring Well Drilling Information", etc. initially, we will ONLY have the Raw Lab Data and, I suspect, add some other items later. But I want the reviewers to know what it will look like even if the link won't take them to the ftp site yet. I have to get with Carol O'Tormey and get her approval with moving forward with the method we have to getting the data on the ftp site.

Please call me if you have any questions.

Thanks,

Paul
